## End of tutorial

Consolidate your documentary protocol: rigorous queries, evaluated sources, structured bibliography.

## Documentary protocol reminder

After this session, update your keyword journal (FR/EN pairs), log each Boolean query with database name, exact syntax, hit count, and decision (keep / refine). Export any new reference to Zotero with complete metadata (author, title, journal, DOI). Prepare Session 04 by testing ERIC and JSTOR with the queries validated today.
