

PG-fr — Template BELACEL V3

Madani BELACEL — ENS Mostaganem

Templates : Template/PG-fr.docx | Template/Presentation_BELACEL_V3.pptx

Duration : 1h30 (90 min) | **PDF :** Cours_TIC_01_Introduction_aux_TIC_EN.pdf

Lecturer: BELACEL Madani

Module: ICT

Level: ENS 1st and 2nd Year — English Department

Duration: 1h30

Academic Year: 2025-2026

Course Overview — E-learning Platform (Moodle)

Target audience: ENS students — future language teachers

Prerequisites: Basic computer skills (Licence level)

Learning Objectives

Knowledge:

- Define ICT and its evolution
- Distinguish technical, information, and communication dimensions
- Understand pedagogical ICT integration in language didactics

Skills:

- Use ICT tools to design teaching sequences
- Evaluate and select digital resources for the classroom
- Create interactive teaching materials

Attitudes:

- Adopt a digital mediator posture in the classroom
- Develop critical thinking about tools and resources

Assessment: Tutorial 40% + ICT Teaching Project 30% + Exam 30%

1. Definition and Evolution (10 min)

ICT covers digital tools and systems for creating, processing, storing, transmitting, and sharing information.

Evolution: NTIC (1990-2005) → ICT (2005-present) → AI and EdTech (2020+).

For the future teacher: ICT are not just personal tools but **pedagogical instruments** to integrate into teaching practice.

2. Three Dimensions (10 min)

Dimension	Definition	Pedagogical application
Technical	Hardware + software	IWB, tablet, Moodle, VLE

Information	Content manipulated	PDF, video, podcast resources
Communication	Exchange between people	Forum, videoconference, virtual classroom

3. ICT and Pedagogy (20 min)

Why integrate ICT in language teaching?

- Learner motivation and engagement
- Access to authentic resources (videos, articles, podcasts)
- Individualized learning paths
- Autonomy development

Application areas:

- Listening: podcasts, audio recording
- Writing: blogs, wikis, collaborative editing
- Interaction: videoconferencing with partner classes
- Grammar/vocabulary: interactive exercises, quizzes

4. The SAMR Model (15 min)

Level	Meaning	Example
Substitution	Tech replaces without change	Paper → PDF
Augmentation	Tech improves the task	PDF with hyperlinks
Modification	Tech transforms the task	Collaborative document (Google Docs)
Redefinition	Tech creates new possibilities	Project with partner class via video

Goal: aim for **Modification** and **Redefinition** levels.

5. ICT Tools for Language Teachers (20 min)

Tool	Use	Type
Moodle	Learning platform	LMS
Quizlet / Kahoot	Gamified exercises	Quiz
Padlet	Collaborative wall	Brainstorming
Audacity	Audio recording	Oral production
LearningApps	Interactive exercises	Creation
Google Classroom	Classroom management	LMS

6. Teacher Digital Competencies (15 min)

1. Design sequences integrating digital tools

2. Implement collaborative online activities
3. Assess with digital tools
4. Ensure security and ethics
5. Develop professional monitoring

7. Ethics and Security (10 min)

- **GDPR compliance:** protect student data
- **Copyright:** use open-licensed resources (Creative Commons)
- **Cyberbullying:** prevention in class
- **Digital identity:** the teacher as a role model

8. Conclusion (5 min)

- ICT are a **pedagogical lever** for language teachers
- Integration must be **thoughtful** (SAMR model)
- Future teachers must develop **digital competencies**

TD 01 (1h30) — analyzing ICT tools for the classroom.

Session Timeline — 1h30 (90 min)

Phase	Duration	Cumulative
Welcome	5 min	5 min
Definition + dimensions	20 min	25 min
ICT + pedagogy + SAMR	35 min	60 min
Tools + competencies	30 min	90 min
Total	90 min	

Templates : `Templatte/PG-fr.docx` | `Templatte/Presentation_BELACEL_V3.pptx`

Duration: 1h30 (90 min) | **PDF :** `Cours_TIC_02_Informatique_et_Ordinateur_EN.pdf`

ICT Course 02 — Computer Science and Computer Architecture

Teacher: BELACEL Madani

Module: ICT

Level: License 1 — French Department

Duration: 1h30

Academic year: 2025-2026

(Email and detailed progress of the session: see PDF cover page.)

Course Sheet — E-learning Platform (Moodle)

Reference: titles aligned with USTO Canvas (elearning.univ-usto.dz); best practices from 10 Algerian university Moodle platforms.

Target audience: L1 Language students / ENS Year 1

Prerequisites: see FR fiche session 02

Learning outcomes: knowledge, skills and attitudes aligned with Biskra/USTO model (savoir / savoir-faire / savoir-être).

Assessment: coursework 40% + Moodle quiz 20–30% + final exam 30%

Learning activities: Moodle forum, assignment upload, guided TD exercises

Assessment activities: chapter quizzes (USTO/M'sila model)

Bibliography: institutional Moodle guides (Boumerdès, Béjaïa); course-specific references in FR version

Instructor: BELACEL Madani — madani.belacel@univ-mosta.dz

Course Plan

1. Introduction: Why understand computers?
2. Definition of IT
3. The computer: concept and model of von Neumann
4. Hardware components (Hardware)
5. Software and operating systems (Software)
6. Interaction between Hardware and Software
7. Best practices for university students
8. Conclusion and transition to Windows

1. Introduction (10 min)

Understanding how the computer works is essential for any student, even in the Languages sector. This allows you to better use your tools (Word, browser, Moodle), avoid data loss, diagnose simple problems and effectively organize your digital workspace.

The computer has become **the main university working instrument**.

2. What is IT? (10 mins)

Computer science is the science of **automatic information processing** using algorithms executed by machines. It includes theory, hardware, software and networks.

User approach: understand enough to use the computer well in your studies.

3. von Neumann model (15 min)

A computer is a programmable machine capable of: receiving data (**Input**), processing it (**CPU**), temporarily storing it (**RAM**), returning it (**Output**) and retaining it (**Secondary storage**).

This operation follows the **von Neumann model** (1945), still used today.

4. Hardware Components (15 min)

- **Processor (CPU):** the brain of the computer
- **Motherboard:** interconnection of components
- **RAM:** volatile RAM, very fast
- **Storage:** HDD or SSD (faster)
- **Peripherals:** input (keyboard, mouse), output (screen, printer), external storage (USB key)

Important point: RAM loses unsaved data when turned off.

5. Software (15 min)

- **Operating system:** Windows, Linux, macOS
- **Application software:** Word, PowerPoint, browsers, Moodle
- **Utility software:** antivirus, compressors

The hardware is tangible; the software is intangible but essential.

6. Hardware / Software Interaction (10 min)

Example: keyboard keystroke → OS translated → processor processes → screen displays.

Without software, hardware is useless. Without hardware, the software cannot run.

7. Good Practices (10 min)

1. Backup regularly (Ctrl + S + Cloud)
2. Organize your files from the start of the semester
3. Update Windows and software
4. Use an antivirus
5. Distinguish between RAM and permanent storage

8. Conclusion (5 min)

Understanding computer architecture allows you to be more independent and efficient.

Next lesson: Windows — Interface, files and customization.

Templates : Templatte/PG-fr.docx | Templatte/Presentation_BELACEL_V3.pptx

Duration: 1h30 (90 min) | PDF : Cours_TIC_03_Windows_EN.pdf

ICT Course 03 — Windows: Graphical Interface, Files and Personalization

Teacher: BELACEL Madani

Module: ICT

Level: License 1 — French Department

Duration: 1h30

Academic year: 2025-2026

(Email and detailed progress of the session: see PDF cover page.)

Course Sheet — E-learning Platform (Moodle)

Reference: titles aligned with USTO Canvas (elearning.univ-usto.dz); best practices from 10 Algerian university Moodle platforms.

Target audience: L1 Language students / ENS Year 1

Prerequisites: see FR fiche session 03

Learning outcomes: knowledge, skills and attitudes aligned with Biskra/USTO model (savoir / savoir-faire / savoir-être).

Assessment: coursework 40% + Moodle quiz 20–30% + final exam 30%

Learning activities: Moodle forum, assignment upload, guided TD exercises

Assessment activities: chapter quizzes (USTO/M'sila model)

Bibliography: institutional Moodle guides (Boumerdès, Béjaïa); course-specific references in FR version

Instructor: BELACEL Madani — madani.belacel@univ-mosta.dz

Course Plan

1. Introduction to Windows in the academic context
2. The complete Windows Desktop GUI
3. Advanced file and folder management
4. File Extensions and Naming Conventions
5. Essential Keyboard Shortcuts
6. Personalization and organization of the workspace
7. Basic security and best practices
8. Conclusion and transition to Word

1. Introduction to Windows (10 min)

Windows is the most widely used operating system in academia. Mastering Windows allows you to save time, avoid losing documents and produce quality work.

2. Graphical Interface (15 min)

- **Desktop**: main workspace
- **Icons**: shortcuts to applications and folders
- **Taskbar**: open applications
- **Start Menu**: programs, settings, search
- **Notification area**: network, volume, updates

Organize the office by thematic folders (Courses, Tutorials, Exams, Administrative).

3. Files and Folders (15 min)

A **file** = name + extension. A **folder** = container.

Recommended tree structure: Documents/L1_Langues_2025-2026/Cours | TD | Exams | Projects | Backups

Convention: YYYY-MM-DD_Module_Type_Name_vX.ext

4. Common Extensions (10 min)

Extension	Kind	Application
.docx	Document	Word
.pdf	Finalized document	PDF reader
.pptx	Presentation	Power point
.xlsx	Spreadsheet	Excel

5. Keyboard Shortcuts (10 min)

Ctrl+C/V/X, Ctrl+Z, Ctrl+A, Windows+L (lock), Windows+S (search).

6. Personalization (10 min)

Simple wallpaper, pin Word/Chrome/Explorer, light/dark mode, optimized taskbar.

7. Safety (10 min)

Lock session, 3-2-1 backup rule, Windows updates, antivirus, caution with unknown USB drives.

8. Conclusion (10 min)

A good command of Windows is the foundation of all your digital skills.

Next lesson: Microsoft Word — Academic office automation.

Templates : Template/PG-fr.docx | Template/Presentation_BELACEL_V3.pptx

Duration: 1h30 (90 min) | **PDF** : Cours_TIC_04_Microsoft_Word_EN.pdf

ICT Course 04 — Microsoft Word: Academic Office Automation and Page Layout

Teacher: BELACEL Madani

Module: ICT

Level: License 1 — French Department

Duration: 1h30

Academic year: 2025-2026

(Email and detailed progress of the session: see PDF cover page.)

Course Sheet — E-learning Platform (Moodle)

Reference: titles aligned with USTO Canvas (elearning.univ-usto.dz); best practices from 10 Algerian university Moodle platforms.

Target audience: L1 Language students / ENS Year 1

Prerequisites: see FR fiche session 04

Learning outcomes: knowledge, skills and attitudes aligned with Biskra/USTO model (savoir / savoir-faire / savoir-être).

Assessment: coursework 40% + Moodle quiz 20–30% + final exam 30%

Learning activities: Moodle forum, assignment upload, guided TD exercises

Assessment activities: chapter quizzes (USTO/M'sila model)

Bibliography: institutional Moodle guides (Boumerdès, Béjaïa); course-specific references in FR version

Instructor: BELACEL Madani — madani.belacel@univ-mosta.dz

Course Plan

1. Importance of Microsoft Word in the university career
2. Word interface and main areas
3. Academic layout (university standards)
4. Professional use of Styles
5. Automatic table of contents
6. Tables, lists and visual elements
7. Saving, PDF export and best practices
8. Conclusion and transition to Excel

1. Why master Word? (10 mins)

Word allows you to produce homework, reading sheets, reports and written presentations. A well-formatted document reflects the seriousness of the student.

2. Interface (15 min)

Ribbon (Home, Insert, Layout, References), page area, navigation pane, status bar.

3. Academic Layout (20 min)

Times New Roman or Calibri 12 font, 1.5 line spacing, 2.5 cm margins, justified text, pagination, headers/footers.

4. Styles (20 min)

Heading 1, Heading 2, Heading 3, Normal — consistent formatting and automatic table of contents.

5. Table of Contents (10 min)

Apply styles Title → References → Table of Contents → Update.

6. Tables, Lists, Images (10 min)

Numbered lists, comparative tables, images with captions.

7. Recording and Export (5 min)

.docx (editable) + .pdf (final submission) + Ctrl+S frequent.

8. Conclusion (10 min)

Next lesson: Microsoft Excel — Basics and academic uses.

Templates : `Templatte/PG-fr.docx` | `Templatte/Presentation_BELACEL_V3.pptx`

Duration: 1h30 (90 min) | **PDF :** `Cours_TIC_05_Microsoft_Excel_EN.pdf`

ICT Course 05 — Microsoft Excel: Basics and Academic Uses

Teacher: BELACEL Madani

Module: ICT

Level: License 1 — French Department

Duration: 1h30

Academic year: 2025-2026

(Email and detailed progress of the session: see PDF cover page.)

Course Sheet — E-learning Platform (Moodle)

Reference: titles aligned with USTO Canvas (elearning.univ-usto.dz); best practices from 10 Algerian university Moodle platforms.

Target audience: L1 Language students / ENS Year 1

Prerequisites: see FR fiche session 05

Learning outcomes: knowledge, skills and attitudes aligned with Biskra/USTO model (savoir / savoir-faire / savoir-être).

Assessment: coursework 40% + Moodle quiz 20–30% + final exam 30%

Learning activities: Moodle forum, assignment upload, guided TD exercises

Assessment activities: chapter quizzes (USTO/M'sila model)

Bibliography: institutional Moodle guides (Boumerdès, Béjaïa); course-specific references in FR version

Instructor: BELACEL Madani — madani.belacel@univ-mosta.dz

Course Plan

1. Introduction: Why use Excel at university?
2. Interface and basic concepts
3. Data entry, formatting and organization
4. Essential formulas and functions
5. Relative and absolute references
6. Creating and Customizing Charts
7. Good practices and export for academic use
8. Conclusion and transition to PowerPoint

1. Introduction (10 min)

Excel allows you to organize notes, bibliographies, survey data, automatic calculations and graphs for reports.

2. Interface (15 min)

Workbook (.xlsx), sheet, cell (B5), range (A1:D10), formula bar.

3. Input and Formatting (15 min)

Inline 1 headers, borders, alignment, conditional formatting.

4. Formulas (20 min)

=SUM(), =AVERAGE(), =MIN() / =MAX(), =COUNT(), =IF().

5. References (15 min)

Relative (B2) vs absolute (\$B\$2) — F4 key.

6. Graphics (10 min)

Histogram, curve, sectors — title, legends, sober style.

7. Good Practices (5 min)

Naming, Ctrl+S, PDF export, check formulas.

8. Conclusion (10 min)

Next class: Microsoft PowerPoint — Academic Presentations.

Templates: `Templatte/PG-fr.docx` | `Templatte/Presentation_BELACEL_V3.pptx`

Duration: 1h30 (90 min) | **PDF:** `Cours_TIC_06_Microsoft_PowerPoint_EN.pdf`

ICT course 06 — Microsoft PowerPoint

Teacher: BELACEL Madani

Module: ICT

Level: License 1 — French Department

Duration: 1h30

Academic year: 2025-2026

(Email and detailed progress of the session: see PDF cover page.)

Course Sheet — E-learning Platform (Moodle)

Reference: titles aligned with USTO Canvas (elearning.univ-usto.dz); best practices from 10 Algerian university Moodle platforms.

Target audience: L1 Language students / ENS Year 1

Prerequisites: see FR fiche session 06

Learning outcomes: knowledge, skills and attitudes aligned with Biskra/USTO model (savoir / savoir-faire / savoir-être).

Assessment: coursework 40% + Moodle quiz 20–30% + final exam 30%

Learning activities: Moodle forum, assignment upload, guided TD exercises

Assessment activities: chapter quizzes (USTO/M'sila model)

Bibliography: institutional Moodle guides (Boumerdès, Béjaïa); course-specific references in FR version

Instructor: BELACEL Madani — madani.belacel@univ-mosta.dz

Course outline

1. Introduction to PowerPoint
2. Interface and display modes
3. Architecture of a presentation (10 slides)
4. Professional design and template
5. Transitions and animations
6. Word and Excel integration
7. Oral presentation and export
8. Conclusion

Introduction to PowerPoint (10 min)

Chapter of the ICT module (series 10 sessions). Handout reference UEM212 — session 06.

Interface and display modes (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Architecture of a presentation (10 slides) (15 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Professional design and template (15 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Transitions and animations (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Word and Excel integration (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Oral presentation and export (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Conclusion (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Templates : `Templatte/PG-fr.docx` | `Templatte/Presentation_BELACEL_V3.pptx`

Duration: 1h30 (90 min) | **PDF** : `Cours_TIC_07_Internet_EN.pdf`

ICT course 07 — Introduction to the Internet

Teacher: BELACEL Madani

Module: ICT

Level: License 1 — French Department

Duration: 1h30

Academic year: 2025-2026

(Email and detailed progress of the session: see PDF cover page.)

Course Sheet — E-learning Platform (Moodle)

Reference: titles aligned with USTO Canvas (elearning.univ-usto.dz); best practices from 10 Algerian university Moodle platforms.

Target audience: L1 Language students / ENS Year 1

Prerequisites: see FR fiche session 07

Learning outcomes: knowledge, skills and attitudes aligned with Biskra/USTO model (savoir / savoir-faire / savoir-être).

Assessment: coursework 40% + Moodle quiz 20–30% + final exam 30%

Learning activities: Moodle forum, assignment upload, guided TD exercises

Assessment activities: chapter quizzes (USTO/M'sila model)

Bibliography: institutional Moodle guides (Boumerdès, Béjaïa); course-specific references in FR version

Instructor: BELACEL Madani — madani.belacel@univ-mosta.dz

Course outline

1. Introduction to Chapter 2: Web technology
2. Definition and history of the Internet
3. Global network and TCP/IP protocol
4. Connecting to the Internet
5. Internet and Web Differences
6. IP addressing (concepts)
7. Academic uses and security
8. Conclusion

Introduction to Chapter 2: Web technology (10 min)

Chapter of the ICT module (series 10 sessions). Handout reference UEM212 — session 07.

Definition and history of the Internet (15 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Global network and TCP/IP protocol (15 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Internet connection (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Internet and Web Differences (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

IP addressing (concepts) (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Academic uses and security (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Conclusion (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Templates : `Templatte/PG-fr.docx` | `Templatte/Presentation_BELACEL_V3.pptx`

Duration: 1h30 (90 min) | **PDF** : `Cours_TIC_08_World_Wide_Web_EN.pdf`

ICT Course 08 — World Wide Web

Teacher: BELACEL Madani

Module: ICT

Level: License 1 — French Department

Duration: 1h30

Academic year: 2025-2026

(Email and detailed progress of the session: see PDF cover page.)

Course Sheet — E-learning Platform (Moodle)

Reference: titles aligned with USTO Canvas (elearning.univ-usto.dz); best practices from 10 Algerian university Moodle platforms.

Target audience: L1 Language students / ENS Year 1

Prerequisites: see FR fiche session 08

Learning outcomes: knowledge, skills and attitudes aligned with Biskra/USTO model (savoir / savoir-faire / savoir-être).

Assessment: coursework 40% + Moodle quiz 20–30% + final exam 30%

Learning activities: Moodle forum, assignment upload, guided TD exercises

Assessment activities: chapter quizzes (USTO/M'sila model)

Bibliography: institutional Moodle guides (Boumerdès, Béjaïa); course-specific references in FR version

Instructor: BELACEL Madani — madani.belacel@univ-mosta.dz

Course outline

1. Introduction to the Web (WWW)
2. Web Browsers
3. Pages, sites and hyperlinks
4. URL and structure of an address
5. HTTP and HTTPS protocols
6. Searching for information on the Web
7. Good academic practices
8. Conclusion

Introduction to the Web (WWW) (10 min)

Chapter of the ICT module (series 10 sessions). Handout reference UEM212 — session 08.

Web Browsers (15 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Pages, sites and hyperlinks (15 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

URL and structure of an address (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

HTTP and HTTPS protocols (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Searching for information on the Web (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Good academic practices (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Conclusion (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Templates : `Templatte/PG-fr.docx` | `Templatte/Presentation_BELACEL_V3.pptx`

Duration: 1h30 (90 min) | **PDF** : `Cours_TIC_09_Reseaux_Informatiques_EN.pdf`

ICT course 09 — Computer networks

Instructor: BELACEL Madani

Module: ICT

Level: Year 1 — English Department

Duration: 1h30

Academic year: 2025-2026

(Email and detailed progress of the session: see PDF cover page.)

Course Sheet — E-learning Platform (Moodle)

Reference: titles aligned with USTO Canvas (elearning.univ-usto.dz); best practices from 10 Algerian university Moodle platforms.

Target audience: L1 Language students / ENS Year 1

Prerequisites: see FR fiche session 09

Learning outcomes: knowledge, skills and attitudes aligned with Biskra/USTO model (savoir / savoir-faire / savoir-être).

Assessment: coursework 40% + Moodle quiz 20–30% + final exam 30%

Learning activities: Moodle forum, assignment upload, guided TD exercises

Assessment activities: chapter quizzes (USTO/M'sila model)

Bibliography: institutional Moodle guides (Boumerdès, Béjaïa); course-specific references in FR version

Instructor: BELACEL Madani — madani.belacel@univ-mosta.dz

Course outline

1. Introduction to Networks
2. Types of networks (LAN, MAN, WAN)
3. Topologies: bus, ring, star
4. Topologies: mesh and tree
5. Components of a network
6. IP and DHCP addressing
7. University network and Wi-Fi
8. Conclusion

Introduction to networks (10 min)

Chapter of the ICT module (series 10 sessions). Handout reference UEM212 — session 09.

Network types (LAN, MAN, WAN) (15 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Topologies: bus, ring, star (15 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Topologies: mesh and tree (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Components of a network (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

IP and DHCP addressing (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

University network and Wi-Fi (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Conclusion (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Templates : `Templatte/PG-fr.docx` | `Templatte/Presentation_BELACEL_V3.pptx`

Duration: 1h30 (90 min) | **PDF** : `Cours_TIC_10_Services_Internet_EN.pdf`

ICT Course 10 — Internet Services

Instructor: BELACEL Madani

Module: ICT

Level: Year 1 — English Department

Duration: 1h30

Academic year: 2025-2026

(Email and detailed progress of the session: see PDF cover page.)

Course Sheet — E-learning Platform (Moodle)

Reference: titles aligned with USTO Canvas (elearning.univ-usto.dz); best practices from 10 Algerian university Moodle platforms.

Target audience: L1 Language students / ENS Year 1

Prerequisites: see FR fiche session 10

Learning outcomes: knowledge, skills and attitudes aligned with Biskra/USTO model (savoir / savoir-faire / savoir-être).

Assessment: coursework 40% + Moodle quiz 20–30% + final exam 30%

Learning activities: Moodle forum, assignment upload, guided TD exercises

Assessment activities: chapter quizzes (USTO/M'sila model)

Bibliography: institutional Moodle guides (Boumerdès, Béjaïa); course-specific references in FR version

Instructor: BELACEL Madani — madani.belacel@univ-mosta.dz

Course outline

1. Overview of Internet services
2. Search engines and metasearch engines
3. Email (SMTP, POP, IMAP)
4. File transfer (Drive, Dropbox)
5. Instant messaging and video conferencing
6. Security and cleanliness
7. Summary of the ICT module
8. Conclusion

Overview of Internet services (10 min)

Chapter of the ICT module (series 10 sessions). Handout reference UEM212 — session 10.

Search engines and metasearch engines (15 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Email (SMTP, POP, IMAP) (15 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

File transfer (Drive, Dropbox) (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Instant messaging and videoconferencing (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Safety and cleanliness (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Summary of the ICT module (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).

Conclusion (10 min)

Detailed content: see official PDF (PG-fr cover + LaTeX body).
